Experience

CyBrief Pvt Ltd — Cybersecurity Intern

May '25 – June '25
Ahemdabad, Gujarat

- Conducted full-lifecycle VAPT on Metasploitable2, identifying 6 critical vulnerabilities including backdoors, SQL injection, etc using Nmap, Metasploit, and Burp Suite.
- Performed active/passive reconnaissance using OSINT, Shodan, and Nmap; exploited web vulnerabilities following the OWASP Top 10 framework on DVWA.
- Delivered a professional security assessment report with CVSS scoring, risk ratings, and remediation recommendations.
- Created a personal Virtual Lab Environment using VirtualBox and understood about the Computer Networking.

Technologies

Languages: C++, C, Python, SQL

Databases : PostgreSQL, MySQL, MongoDB,

Cybersecurity Tools: Nmap, Burp Suite, Metasploit, Wireshark, SQL map

DevOps & Cloud Tools: Docker, Linux, Git, GitHub, VS Code, AWS(EC2, S3, IAM, VPC, Lambda, CloudFormation)

Core Skills: Communication, Interpersonal Skills, Leadership, Collaboration

Projects

TAPMS-Teams and Project Management System

[GitHub](#)

- Developed a platform where students are assigned batches where they can collaborate and create projects. Mentors keep a track of them.
- **Stack:** PostgreSQL, ReactJS, NodeJS, Docker

Pyguard-Network Traffic Analyser and ML Based Intrusion Detection

[GitHub](#)

- Developed the Desktop app capable of analysing the heavy network traffic along with the filtering of the packets and storing it in different formats along with the ML based intrusion detection (currently made it opensource for ML detection)
- **Tech Stack:** Python libraries: scapy, pcapy-ng, PyQt5, psycopg2-binary, colorlog, postgresql

PeerConnect-Peer to Peer Resource Sharing platform (ongoing)

[GitHub](#)

- community-owned Infrastructure-as-a-Service (IaaS) platform that enables secure, metered compute sharing using Docker containers..
- **Stack:** Python, React.js, PostgreSQL, Docker.

Achievements

- **Treasure Hunt by EyeCoders Club:** Stood second [\[certificate\]](#)
- **HackNUthon top 10 winner** in "BlockChain based crypto wallet" [\[certificate\]](#)

Education

Charusat University - B.Tech. Computer Engineering

July '23 – Pursuing

- CGPA: 9.2/10.0

Co-Curricular

Member-Department Cybersecurity Club

July '25 - ongoing [certificate](#)

- Conducting the sessions on the different topics of the cybersecurity including the hands on practical.

GDG-CHARUSAT core member

Oct'25-ongoing [certificate](#)

- Serving GDG CHARUSAT as the 3d animator and Video Editor

Member - University and Department Media Team Nov '23 - ongoing

Nov '23 - ongoing [certificate](#)

- Create engaging content, manage media initiatives, and contribute to projects to enhance the Universities presence.

Odoo x Charusat Hackathon Extended Core Member

Feb '25 - March '25

- Added 1 Lakh digital reach on Instagram as part of the digital marketing and media team
